IN STOCK

Highlighted skews & prices signify what we are currently stocking

Centanni Tile Inc. offers an extensive selection of over 4,000 Profiles and Trims by LATICRETE. The comprehensive LATICRETE line of profiles and trims includes a broad range of materials, finishes, and colors in a multitude of shapes and sizes, making it easy to find the right product for the job. German-engineered and manufactured, LATICRETE Profiles & Trims meet the highest quality standards to ensure the best installation experience and appearance for years to come. As we would love to stock all the profiles it's not possible. All and any highlighted product numbers are stocked in our Burnaby BC location. If you require any of the trims not highlighted there is a minimal order of 1 piece. Any items not highlighted that are purchased on special order takes 4 weeks to bring in. There are no returns on non-stocked items. All special-order items are to be paid in full at the time of ordering.

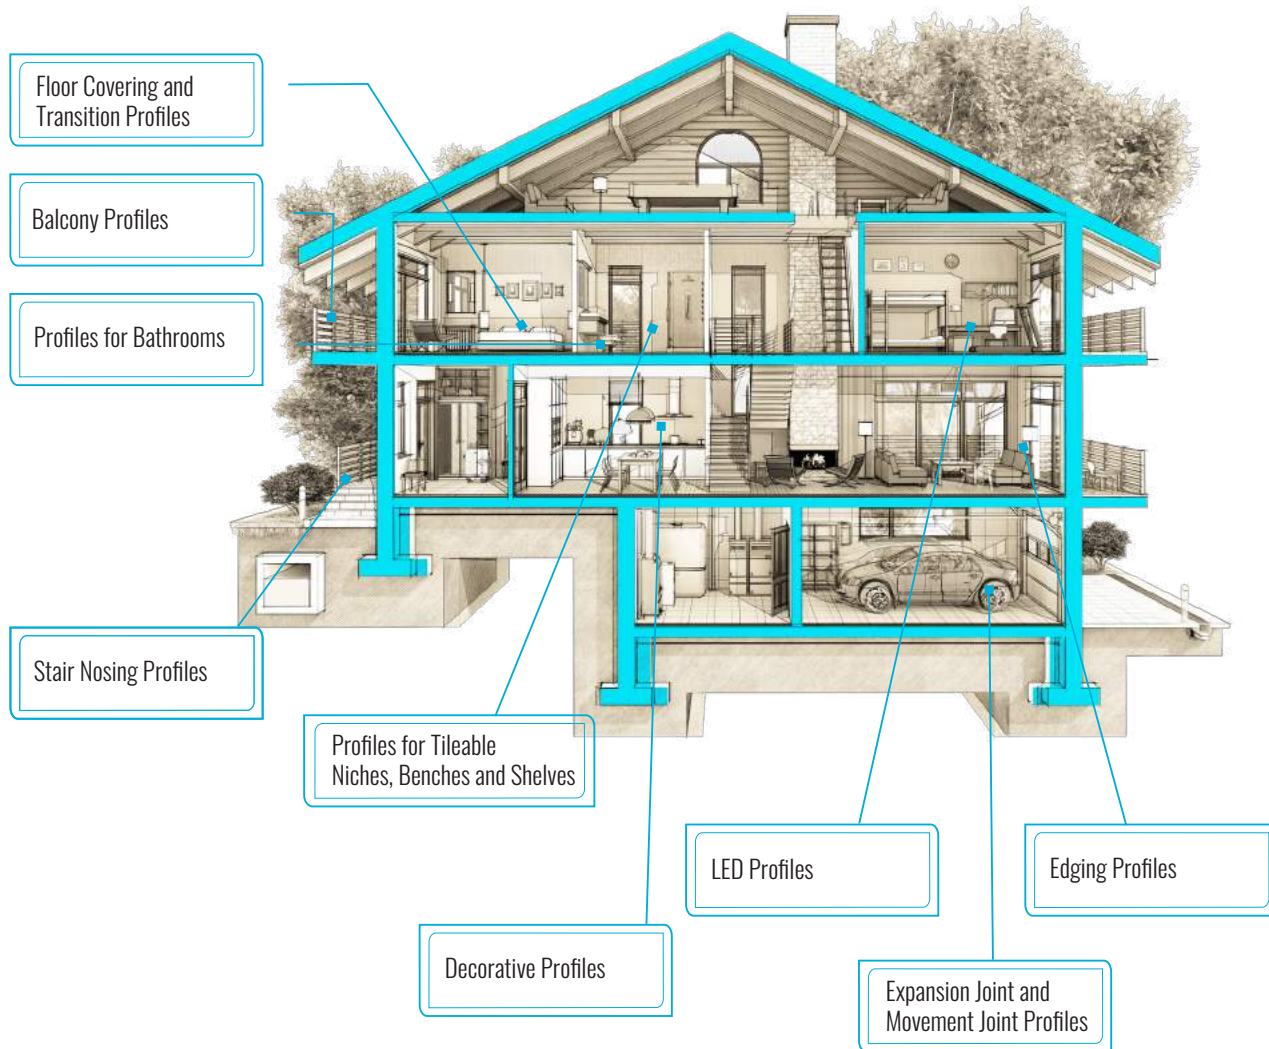

Additional Profiles & Trims available at laticrete.com/profiles.

One Source. Limitless Capabilities.

From Profiles to the Complete LATICRETE® System.

LATICRETE offers you a comprehensive line of profiles and trims for edging, nosing, and transitions on the market. For use with a variety of finishes, including tile and stone, terrazzo, wood, LVT and more. Install them indoors and outdoors, in kitchens and bathrooms, commercial and residential applications, and everything in between. You can even create unique design elements and accent colors using our selection of LED profiles.

LATICRETE offers a complete system solution for virtually every tile and stone application.

For more than half a century architects, engineers, and developers have trusted LATICRETE with their tile and stone installation needs. Let our experience, product quality, and technical support assist you on your next project — whatever the application.

LATICRETE has successfully provided the technology for innovative, permanent installations of tile and stone finishes.

Architecturally specified and preferred by professional installers, LATICRETE provides solutions for virtually every application.

- LATICRETE® products are industry accepted, code approved, and backed by 100% labor and materials system warranties, thereby assuring a successful installation each and every time
- LATICRETE membranes, adhesives, grouts, and sealants are weather-resistant and freeze/thaw stable when cured

#NOTE: Not available for sale in Canada.

For over 65 years, LATICRETE has led the industry with pioneering advancements — developing high-performance building materials for architects and construction professionals worldwide. From time-tested to ground-breaking, our broad product portfolio provides superior quality and value. We are fully committed to innovation, growth, and a complete system component approach.

Tile & Stone Installation Systems

Ensure a successful installation each and every time with the most comprehensive assortment of innovative tile and stone installation materials available worldwide. LATICRETE® industry-leading products provide complete system solutions from the substrate up through the grout for virtually any type of tile or stone installation in commercial, industrial, and residential applications.

Product categories include surface preparation, waterproofing, shower system components, sound control, anti-fracture, floor warming, adhesive mortars and grouts — all designed to work together, providing a comprehensive installation.

CSI Division 9

Profiles & Trims

Whether a sleek, modern look or a more traditional design is desired, LATICRETE Profiles & Trims offer the flexibility and versatility to achieve those results in commercial and residential applications.

Available in aluminum, stainless steel, brass, and PVC, LATICRETE Profiles & Trims are each crafted with the utmost precision, milled with state-of-the-art equipment, and produced with the finest raw materials to create premium-quality and a consistent appearance piece to piece.

LATICRETE profiles and trims can protect tile edges and enhance safety all while providing a finishing touch to any room. The comprehensive line includes expansion joints, corner protection, stair nosing, edging, and balconies — and is compatible with tile, carpet, vinyl, wood, and more.

Tile, Stone & Surface Care

Over time, daily use and foot traffic can significantly impact surface appearance and result in permanent damage. Routine care and maintenance with the right products can make all the difference to ensure a beautiful lasting surface.

LATICRETE® STONETECH® is a line of reliable and high performing surface care solutions designed to clean, protect, restore and enhance stone, tile, masonry and grout. Highly effective at preventing oil, water and stain damage, STONETECH offers natural look sealers that protect porous surfaces but do not alter the surface appearance and enhancing sealers that can revive the color or finish all while protecting. STONETECH cleaners ranging from daily to heavy duty and problem solving solutions will eliminate everyday spills and restore the appearance without harming the intended surface. Preserve the beauty of stone, tile, and grout with STONETECH.

Concrete & Substrate Preparation

A quality finished floor starts with a properly prepared surface—one that guarantees a long-lasting, durable installation. LATICRETE time-tested surface preparation products are formulated to preserve quality by protecting installations from water vapor transmission, sound transmission, and cracks. They provide a perfectly level substrate to accommodate a variety of floor finishes including vinyl, wood, carpet, and tile.

Our innovative products are engineered to ensure substrates will easily accept finishes with minimal time and maximum cost-effectiveness, no matter how challenging your subflooring project may be.

CSI Divisions 3 & 9

Adhered Façade & Wall Finish Systems

Keep up with the increasing popularity of adhered masonry veneers. Trust your installations to a complete productivity-boosting system designed to deliver superior, long-term performance on masonry projects of all types including residential, commercial, and industrial applications.

Unlike traditional methods and materials, the Masonry Veneer Installation System (MVIS™) is engineered to provide a permanent, high-strength installation that uses a revolutionary waterproofing membrane. The MVIS is designed for thin-brick, manufactured stone and natural stone veneers for interior and exterior applications. Complementary products include sealers and cleaners for stone and pavers.

CSI Divisions 4 & 7

Resinous Coating & Floor Finish Systems

Offer unparalleled integral colors, textures, and finishes with high-performance coatings, overlayments, and restoration solutions that give owners exceptionally attractive, durable, decorative floors. LATICRETE decorative finishes allow you to deliver vivid color and gloss with high impact and wear resistance, quick turnaround, and low maintenance.

CSI Divisions 3 & 9

Industry-Leading Training and Support

UL GREENGUARD Gold Certification

LATICRETE® low-VOC products are independently certified. Our products help you contribute toward LEED certification.

LEED Support

Our online project certification tool automatically generates required LATICRETE product information for your specific LEED project submittals. Additional LEED information and calculations are available at laticrete.ecoscorecard.com.

LATICRETE Architectural Guidebook

Use this informative online tool to get complete specifications and details for your projects. You can access it at: www.laticrete.com/ag

Training and Education

LATICRETE Training Classes and Continuing Education Classes are available through various platforms. Check our website regularly for the latest offerings and updates at: www.laticrete.com/training.

LATICRETE offers the best system warranties in the industry.

Unmatched Peace of Mind

LATICRETE takes pride in delivering comprehensive system warranty packages and superior service through industry-leading support. With training from our highly experienced technical support team and quick, easy access to supportive online tools, we provide everything you need to ensure high-performance solutions.

Learn industry standards from experts in the field and from the comfort of your home or office.

LATICRETE offers intensive training programs that were specifically developed for industry distributors, dealers and other industry professionals. Programs are offered through multiple platforms:

- LATICRETE Profit Through Knowledge (PTK) classes held at LATICRETE Technical Training Centers throughout the US (in person training classes through LATICRETE Technical Services)
- LATICRETE Profit Through Knowledge Webinars
- LATICRETE Connectados & Connectados PLUS Global Training Webinars
- LATICRETE University
- LATICRETE Product Knowledge (PK) seminars are available locally through your LATICRETE Technical Sales Representatives. Contact your local LATICRETE Technical Sales Representative for additional information.

Check www.laticrete.com/training for more information.

BENEFITS

- Expand knowledge of how to select and recommend the most suitable installation materials
- Increase knowledge of LATICRETE® products
- Learn trade definitions, performance requirements, and industry standards
- Learn how to solve and avoid job problems
- Participate in hands-on product demonstrations

SEMINAR LOCATION

LATICRETE Technical Training Centers are located throughout the US at various LATICRETE office locations. Check our website regularly for class information and locations.

PROGRAM INCLUDES

Tile, Stone, Masonry Veneer Installation Systems, Resinous Flooring, Surface Preparation and Construction Chemical

industry installation methodology and respective LATICRETE Product knowledge installation training conducted by the LATICRETE Technical Services Department. Experienced instructors use classroom instruction, hands-on product demonstrations and virtual tools to provide the latest LATICRETE installation and product training.

LEARN ONLINE AT YOUR LEISURE

LATICRETE is proud to announce its new eLearning program, LATICRETE UNIVERSITY.

LATICRETE UNIVERSITY makes it possible for anyone within the industry to train on industry standards and Profit Through Knowledge (PTK) Technical Seminars from the comfort of their home or office. Training has become necessary to learn about new products and modern technology. Traveling and leaving your business behind to attend training is not always easy or possible. Now anyone in your company can receive the quality information, previously possible only during live training sessions, within a short period of time and without leaving the job for an extended period of time.

LATICRETE UNIVERSITY presents vital industry and product information in short, easy segments that can be taken at any time, 24/7.

Here's how it works:

1. You listen to and observe a short tutorial.
2. You take a short test that will measure your knowledge retention.
3. Upon the successful completion of a segment, you print a certificate or have it emailed to you for your employee training records.

Note – You can pause and resume your training at any time. You can re-take training to sharpen your knowledge.

To access the LATICRETE UNIVERSITY, go to www.laticrete.com/training, create a user profile and begin your training.

For further information, log onto www.laticrete.com/training, or contact LATICRETE at +1.203.393.0010, ext. 1235

TILE PROFILES

PAGE 12 - 39

Tile profiles are designed to protect and visually enhance any finished tiled floor, wall and countertop. Ranging from multiple decorative shaped edges to coves, borders, transitions and more, LATICRETE® tile profiles come in many different materials, finishes and colors that can create a unique, sharp look to any room. The design possibilities are endless.

STG	STONE GREY

Code for Profile Height

Code	Inches	Millimeters
020	5/64"	2
025	3/32"	2.5
030	1/8"	3
035	1/8"	3.5
045	3/16"	4.5
060	1/4"	6
070	9/32"	7
080	5/16"	8
090	11/32"	9
100	3/8"	10
110	7/16"	11
120	15/32"	12
125	1/2"	12.5
140	17/32"	14
150	9/16"	15
160	5/8"	16
175	11/16"	17.5
185	23/32"	18.5
200	3/4"	20
210	13/16"	21
225	7/8"	22.5
250	1"	25
275	1-1/16"	27.5
300	1-3/16"	30
400	1-9/16"	40

MAINTENANCE FOR TILE PROFILES

STAINLESS STEEL 304

Withstands high mechanical stress. Stainless steel is particularly resistant to most chemical products, diluted acids and alkalis. Avoid contact with hydrochloric acid and unalloyed steel tools. When cut, stainless steel loses its rust resistance at the cutting edges, so separate rust protection should be applied. Cutting dust or sparks must be removed immediately (risk of flash rust). For special cases, stainless steel profiles are also available in 316L quality (even higher corrosion resistance than 304).

ALUMINUM

Designed for medium mechanical strength. Sensitive to alkaline materials, e.g. this can lead to strong stains (oxidation spots) with fresh cement. Mortar and grout must always be wiped off immediately with plenty of clean water on visible surfaces. Once oxidation stains are present, they are very difficult to remove.

ANODIZED ALUMINUM

Anodizing is a special, optically enhancing surfacing finish for aluminum profiles. Aluminum anodizing is available in the colors silver, gold, champagne and titanium. The anodized aluminum is sensitive to scratches and may discolor when combined with alkaline construction chemicals. Contact with fresh cement can lead to etching of the surface. Mortar and joint residues on visible surfaces must always be wiped off immediately with plenty of water. Once oxidation spots are present, they can hardly be removed. Only pH-neutral cleaning agents without abrasive components should be used.

COLOR AND TEXTURE COATED ALUMINUM

Coated using a special powder coating process. Thus harder and more durable than normal lacquering. UV-stable, good chemical resistance. Visible surfaces are sensitive to scratches. Use cleaning agents without abrasive components.

BRASS

Designed for high mechanical strength. Brass oxidizes (patinizes) in air. When used in damp rooms or in conjunction with aggressive media, oxidation may increase or stains may form on visible parts. If necessary, brass profiles should be polished with special cleaning pastes to enhance their appearance. In the case of elastic connection joints, only neutrally crosslinking silicone should be used (risk of corrosion).

PVC

Conditionally mechanically loadable, can only be used as edge protection against light impacts. Colored profiles are UV-stable under normal circumstances, but color differences may occur with constant UV irradiation. Insensitive to diluted acids and alkalis, e.g. chlorinated water. Resistant to fungi and bacteria.

THIS APPLIES TO ALL MATERIALS

- When laying and grouting metal profiles and trims (aluminum, stainless steel and brass), adhesive and grouting materials must be removed immediately with fresh clear water and a soft, non-scratching sponge in order to avoid corrosion damage to the profiles.
- Do not use acidic (e.g. cement residue remover) or alkaline cleaning agents in combination with all metal profiles.
- Clean with clear water and dry a linen cloth.
