# General Terms & Conditions

## METHODS OF PAYMENT

We accept VISA, MASTERCARD, INTERACT DEBIT & CASH. Company cheques are accepted by account holder clients only. All sales terms are C.O.D. unless otherwise stated in your Client Account Agreement package. Please ask the sales desk about credit application process or go to: [www.centannitile.com/](http://www.centannitile.com/) onboarding to fill out the form online.

## SAMPLES

4 oz. Sample bottles of most STONETECH products are available for mockups and trials for professional clients. Please contact your account manager or order desk at head office to request samples.

Grout swatches and other Laticrete promotional material, including sample-swatches of product is often available upon request. We do not have sample sizes for mortars, grouts and membranes other than Laticrete's official promotional documents and samples.

We do have an early-adopters program with subsidized product offered for on-site trials. Timing of promotions is launch-dependent. Promotional & regular business requirements apply. Please contact your account manager or head office for details.

## RETURNS

Returns on mortars, grouts, sealers or cleaners will not be accepted.

Tools may be returned in Unused and/or unopened state only. 20% restocking fees apply to all returns.

## SPECIAL ORDERS

Laticrete trucks come regularly from Oregon. Special orders can be handled with 3-4 week's notice in most cases with no additional charge. Expedited shipping is possible and will be calculated prior to order placement. Full payment in advance, including shipping is required for special orders.

## CLAIMS

Centanni Tile is an importer of premium tile and installation material and does not manufacture its own material. We work with our vendors to settle any claims on behalf of our clients.

In order for us to effectively do so on your behalf, the following terms apply to all requests to claim against manufacturing defects:

No claims will be accepted for use of wrong material if the products have been installed. It is the responsibility of the client and installation professional to verify all material for adherence to specification and acceptability prior to use in installation.

Original invoice and manufacturer's packaging when possible will be required to review your pending claim.

Please supply us with pictures and description of the perceived issue so we can review and then meet you on-site to offer solutions to rectify the situation prior to installation.

For setting material and substrate failures specifically, we will need a full list of items used in the complete tile assembly including any backer-units, membranes, levelling compounds, primers, mortars, grouts and anything else that is between studs or beams and tiled surface. The more information you can provide, the easier we can find the cause of the issue and settle your claim.

# ILLINOIS COLLECTION

## Glazed Porcelain Tile

Illinois features a very soft aesthetic but despite this, has quite strong variation due to the aggregates. Proper mixing and care in orientation and placement is key to getting an organic and flowing result. \*Especially for cut pieces\*
