# Glazed Porcelain Tile

12 x 36"

## COLOR NOTES

Brick White

\*Brickwall is porcelain with the ability to be used exterior and wet areas. While not recommended for flooring because of the aesthetic and structured surface, there are no technical reasons why it couldn't be used for flooring.

## CURATION NOTES

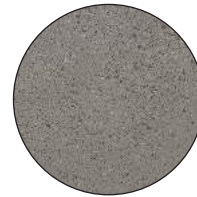

- There's nothing that adds perceived value to a space like exposed brick. Get the "artist's loft" feel in any space with Brickwall.
- Variegated brick sizes and slightly irregular joints help to mask the boundaries of each piece.
- Tight joints of 1/16" are required to achieve optimal look for this collection. Soft perimeter joints at changes of plane are essential with tight joint matrixes.
- If offsetting courses of tile, keep it to a max of 12" offset (1/3 tile).

## PAIRING NOTES

### FLOORING

Axis Nut  
8" x 48"

Illinois Collection  
Multiple Sizes

\*Nearly everything in our collection pairs well with Brickwall's simple, white aesthetic and brick structure.

Brickwall is a solid-color chromatic glaze and as such, does not have variation or graphical repeats.
