## CURATION NOTES

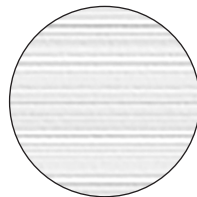

- Colorado is modern take on a Palladiana Terrazzo. Chip sizes vary from large to small lending a softer, more organic look than a traditional Venetian terrazzo.
- Chips and their surrounding matrix are colored in a broad-spectrum of adjacent tones, creating a widely varied, yet subtle overall aesthetic.
- Orientation of cut pieces must be considered carefully in relation to adjoining pieces to avoid contrast that is too strong. This characteristic is what makes Colorado such a rich and enveloping collection.
